

Job title **Nurse**
Department **Chronic Disease Clinic, Department OPD**
Place **St. Francis D.D. Hospital, Ifakara, Morogoro, Kilombero**
Start Date **ASAP**

Context The Chronic Disease Clinic of Ifakara was established in 2004. VCT (Voluntary Counseling and Testing) and medical treatment with antiretroviral therapy are offered to 1200 out-patients and also the hospitalized patients of the various departments of SFDDH. The team consists of 3 M.D.s, 2 AMOs, nurses, a data clerk and a pharmacy assistant.

Key Duties To support the HIV/AIDS treatment and care team leader at CDCI of SFDDH in all clinical, administrative and technical matters concerning Voluntary Counseling and Testing (VCT) activities of the various departments of SFDDH following the NACP Guidelines.

To counsel out- and in-patients of SFDDH in questions of safer-sex practice, nutritional support, OIs prophylaxis and adherence to antiretrovirals.

Requirements - VCT Training (by NACP preferably)
- Strong interest in HIV/AIDS issues
- Willingness to learn on the job
- Reliability, flexibility and loyalty towards colleagues
- Tolerance and understanding of patients requirements
- Capacity to cope with a large workload and to live in a rural area
- Ability to communicate in English
- Basic knowledge in IT

Salary To be discussed
